Lesson Measurable Learning Objectives:

The student will identify at least one career that matches his/her interests.

The student will identify five workers who match his/her preferences. From the list of five, the student will choose one worker and will identify this worker’s contributions to society through his/her work.

Lesson Formative Assessment (acceptable evidence):

Assessment should relate to the performance outcome for goals and objectives.

Assessment can be question answer, performance activity, etc.

The student will complete a new activity sheet indicating individual preferences. He/she will compare these preferences with those discovered in grade 4, comparing and contrasting the two sets of responses. Using the *Career Paths Mini Poster*, the student will select a career that matches his/her preferences.

Lesson Preparation

Essential Questions:

- Why is it important for things to change in the world?
- How have you changed over the years? How are those changes important to you?
- What are your personal and educational interests and strengths now?

Engagement (Hook):

Counselor asks: “Have you changed your interests since you were in Kindergarten? How have they changed?” Students give their ideas of how they have changed. “Thumbs up if you have changed since last year?” Students give thumbs up if they agree. Counselor explains that students will be doing a self-assessment (*Where Do I Fit*) that they may have done last year which helps students discover more information about their own strengths and interests. Students compare last year’s responses with this year’s responses, and decide areas in which they have changed. Counselor says, “Remember: there are no wrong answers...only right ones because they are personal to you.”

Procedures

Instructor Procedures/Instructional Strategies:	Student Involvement/Instructional Activities:
<ol style="list-style-type: none"> 1. Counselor uses responses in the “Hook” to transition into decision-making and self-knowledge. Explain that it is important to know that as we grow, our interests and strengths may change. Having this knowledge helps each person make better decisions for his/her own life and/or work satisfaction. Ask 3 or 4 students to explain one change in their interests since Kindergarten. 2. Counselor distributes the new copy of the <i>Where Do I Fit? Activity Sheet</i>. Students are given time to “read-through” the activity sheet and to ask questions. They are instructed to follow the directions by using “Y”, “N”, or “M” to rate each preference when finished. They are instructed to mark those items that most reflect what they like and can do well with an asterisk (*). 3. When finished, students are given their activity sheets from grade 4. They are instructed to compare the two sets of answers and to highlight changes on the 5th grade version. If a student did not complete 	<ol style="list-style-type: none"> 1. Students listen and contribute personal change. 2. Students complete the worksheet. 3. Students compare their answers on the worksheet to the 4th grade results.

<p>the “<i>Where Do I Fit?</i>” <i>Activity Sheet</i> last year, have them contribute from their memory of last year’s preferences.</p> <p>4. When students are finished, counselor asks the students to look at the list of workers on the <i>Mini Poster – Jobs in the World of Work</i>, which has a list of workers. Students review attributes they marked on the “<i>Where Do I Fit?</i>” <i>Activity Sheet</i> and compare them to the attributes that they think specific workers might have, using their knowledge of the career paths as a reference. The <i>Career Path Mini Poster</i> is reviewed with the students.</p> <p>5. Each student chooses a minimum of 5 workers from the list that they identify with most. From the list of 5, they pick one worker and briefly discuss this worker’s contributions to society through his or her work. Students may do this individually or in small groups (Example: Law Enforcement Officer– keep people safe, save lives, help people follow the laws, rescue people.).</p> <p>6. Ask students to tell one new thing learned about him or her and at least one new career that may match their personal attributes and preferences.</p>	<p>4. Students compare their 5th grade responses to the preferences of workers in the Career Paths.</p> <p>5. Students identify 5 workers who match their preferences, and from the list of 5, choose one worker, and identify this worker’s contributions to society through his or her work.</p> <p>6. Students reflect and give their responses.</p>

Number of "yes" answers: _____

Number of "no" answers: _____

Number of "maybe" answers: _____

If you have a lot of "yes" and "maybe" answers, you probably are open to many different types of careers. If you have many "no" answers, you are less flexible about what types of jobs you might like.

Now that you have this information, look at the Career Path poster and figure out some careers and career paths that fit you best!
